

DAVID A. BRADT, MD, MPH, FACEM, FAFPHM, FAAEM, DTM&H

David Bradt is a disaster epidemiologist working in disaster medicine and disaster public health. He is triple specialty certified in emergency medicine and public health with cross-training in disaster management through the International Committee of the Red Cross, the World Health Organization, the United Nations High Commissioner for Refugees, the US Agency for International Development's Office of US Foreign Disaster Assistance, and Tripler Army Medical Center. His professional interest is disaster health services leading to disaster field experience in 21 countries and territories. Among his assignments, he served as International Federation of Red Cross medical coordinator in Zaire during the

Rwandan genocide, International Rescue Committee physician in Macedonia and Albania during the Kosovo ethnic cleansing, WHO medical coordinator in Indonesia after the Indian Ocean tsunami, WHO health coordinator in India after the Gujarat earthquake, WHO technical consultant in Indonesia at the Timor crisis and the Maluku crisis, USAID/OFDA health officer in Indonesia after the Javanese earthquake, USAID/OFDA senior field officer in Sudan during the Darfur genocide, USAID/OFDA health officer in Ethiopia during a food security crisis, and American Red Cross medical consultant at US disasters including World Trade Center terrorism, Supertyphoon Paka, and Hurricane Andrew.

Dr. Bradt is a John Simon Guggenheim Memorial Foundation Fellow, and a Rockefeller Foundation Bellagio Center Scholar. He holds institutional appointments in the US at the Johns Hopkins School of Medicine, the Johns Hopkins School of Public Health, and in Australia at the Royal Melbourne Hospital. His research addresses disaster preparedness metrics in health systems, rapid epidemiological assessment of disasters, health status of disaster-affected populations, and best practices in disaster relief operations. His scientific writings include over 40 first-authored journal articles and technical reports. He serves on the editorial boards of two NLM indexed biomedical journals, the board of directors of the World Association for Disaster and Emergency Medicine, and the specialists candidate roster of the Fulbright Specialists Program. He consults on disaster health issues for governmental, non-governmental, Red Cross, and UN organizations. His awards include the Johns Hopkins Emergency Medicine Outstanding Faculty Award, Johns Hopkins University School of Public Health Society of Alumni Award for Public Health Practice, American Red Cross National Headquarters Volunteer Award in Disaster Services, USAID Meritorious Group Award to the Darfur Disaster Assistance Response Team, WHO Regional Office for South-East Asia Certificate of Appreciation for emergency response, Australasian College for Emergency Medicine Victorian Faculty Fellows Prize for medical research, and International Federation for Emergency Medicine Humanitarian Award.
